- Custom Applications
- Software Testing and QA
- Maintenance and Support
- IT Consulting Services
- System Integration
- Network Integration (NI)
- Information Technology Outsourcing (ITO)

Affordable, personalized, and streamlined Point-of- Sale, Enterprise Resource Planning, Time Attendance Systems and more...

For more than a decade, Falcons Soft's team of dedicated experts have delivered customized systems designed to suit business' needs. Each business is unique and Falcons Soft is committed to producing customized systems that address your specific needs.

Adherence to Industry standards, proven results evaluating software quality, and comprehensive review of program design and implementation.

Falcons Soft provides professional, third-party reviews of software for clients to ensure that all required operations are effective, efficient, and integrate with other systems, meeting client needs. Falcons Soft appreciates the risks involved in implementing software. We are committed to providing thorough and timely Quality Assurance and Software Testing for our clients.

Quality procedures designed to improve product longevity, highly qualified customer support professionals, a company-wide pledge to serving the needs of our clients.

Falcons Soft understands that customer needs evolve with the regular use of systems and as their business evolves with the market. Regular maintenance is also required in order to preserve the value of software over time. We ease this process for our clients with round-the-clock support and a commitment to extending the life-cycle of systems.

Comprehensive and reliable consulting services, thorough analysis of our clients' needs and infrastructure, and actionable IT initiatives.

Falcons Soft provides strategic, architectural, operational, and implementation planning for our clients. Our IT Consulting Services deliver customized analysis of your business' capabilities and future prospects. With the rapid pace of the tech sector, allow our experts to prepare your business for the future.

State-of- the-art technologies, dedicated professionals with years of experience, and a commitment to serving the needs of our clients.

Falcons Soft can help you implement and integrate your systems in order to achieve your specific business goals. System integration is a vital part of so many projects, so we are proud to offer a comprehensive range of services. Falcons Soft is confident acting as a prime contractor alongside other component providers. Alternatively, we can act as the sole supplier, build turnkey solutions, or carry out more routine projects. Whatever the customer need, Falcon Soft delivers quality, customer-based service.

Customized network consulting, skilled network design, and well-qualified implementation and maintenance services for our clients.

Whether your company uses a Local Area Network (LAN), Wide Area Network (WAN), or is interested in a Next Generation Network (NGN), Falcons Soft offers our clients a total solution for their IT infrastructure needs.

Profile | Information Technology Outsourcing (ITO)

Tailor-made applications, reliable infrastructure, and other outsourcing services focused on keeping your business agile and secure.

Falcons Soft specializes in Information Technology Outsourcing, providing your business with experienced and professional service. Free up valuable company resources and take advantage of Falcons Soft's proven expertise in Process Innovation, Application Outsourcing, Data Center, Network, Disaster Recovery, and Help Desk services.
